“We make a living by what we get, but we make a life by what we give”, Winston Churchill.

Technical Skills

Front End: ReactJS, NextJS, HTML, CSS, JavaScript/ES6, Typescript, Tailwind CSS, Bootstrap, Material UI, Shadcn.

Back End: PHP, Laravel, Node.js, Express.js, C#, ASP.NET MVC.

Database: SQL Server, MySQL, MongoDB, Firebase.

Other: RESTful APIs, Responsive Layouts, Agile/Scrum, Structure and Authoursium, Git, Github, Gitlab, Bitbucket, Linux, Deploy, Docker, Figma.

Education

Ho Chi Minh City University of Foreign Languages – Information Technology

July 2020 – July 2024

Major in Software Engineering (GPA: 3.2 / 4.00)

District 10, Ho Chi Minh

- **Relevant Coursework:** Data Structures and Algorithms (C#), Mobile (Java), Database (SQL), Agile - Scrum.

Experience

IndieGoodies

Jul 2025 – Now

Software Engineer (iOS & Web)

Remote

- Develop and maintain production-level software products across **iOS** and **Web** platforms.
- Build and ship high-quality **iOS applications** using **SwiftUI**, **Combine**, and modern Apple frameworks with clean **MVVM** architecture.
- Implement data persistence using **CoreData**, **AppStorage**, and optimize performance for smooth animations and complex UI flows.
- Design and develop polished UI features including onboarding flows, analytics dashboards, ranking systems, interactive forms, and animated components (Lottie).
- Develop **marketing websites and landing pages** for mobile apps using **Next.js**, focusing on SEO, performance, and conversion optimization.
- Leverage **server-side rendering (SSR)**, static site generation (SSG), and API routes in **Next.js** to support scalable app marketing and analytics needs.
- Integrate third-party services such as **RevenueCat**, RESTful APIs, and in-app purchase / subscription logic across platforms.
- Build supporting features including **iOS Widgets**, deep linking, local notifications, and SEO-friendly web pages for app promotion.
- Collaborate with remote team members on system design, code reviews, UI/UX refinement, debugging, and production releases.
- Tech stack: Swift, SwiftUI, Combine, CoreData, WidgetKit, StoreKit, RevenueCat, Next.js, TypeScript, REST APIs.

Vido Group

Aug 2024 – Jul 2025

Fullstack Developer

District 3, Ho Chi Minh

- Maintain and develop features for digital transformation websites using Laravel, CodeIgniter, ReactJS, and NextJS, HTML, CSS, Javascript, ensuring application performance and stability for the company and its partners.
- Design website interfaces using Figma, ensuring a seamless user experience.
- Deploy and configure websites, ensuring optimal functionality and security.
- Regularly maintain and update websites to improve performance and user experience.

Project:

- **Vido B2B:**

- Description: A B2B website platform for Vidotour, designed to optimize business operations and client interactions.
- Role: Fullstack Developer
- Responsibilities:
 - + Maintain and develop website features using CodeIgniter.
 - + Improve performance for price retrieval processes.

- + Update and optimize user interfaces to be more user-friendly (intuitive and easy to use).
- + Synchronize databases with internal software systems.
- + Upgrade the system to connect with partners.
- + Deploy websites.
- Website: <https://vidotour.com/>
- Tech stack: HTML, CSS, Javascript, JQuery, PHP, Codeigniter, MySQL.

- **Viantravel:**

- Description: Tour sales website of Vian Travel company.
- Role: Fullstack Developer
- Responsibilities:
 - + Research and develop mobile-friendly web interfaces based on design using Next.js and Tailwind CSS.
 - + Build Restful APIs using Laravel.
- Website: <https://viantravel.com/>
- Tech stack: Nextjs, Typescript, Tailwind CSS, Shadcn, Laravel, PHP, MySQL.

Fado Group

Intern Front End Developer

May 2023 – July 2023

District Tan Binh, Ho Chi Minh

- As an intern Front-End Developer for E-commerce websites, my responsibilities include leveraging Next.js, Tailwind CSS, Material UI, GraphQL, and GitLab to contribute to the development of dynamic and user-friendly online platforms.
- NextJS, Typescript, Tailwind CSS, Material UI, GraphQL, Postman, Gitlab.

Projects

ThuocNhanh.VN | LARAVEL, PHP, HTML, CSS, SCSS, Javascript

09/2024 - 10/2024

- This is a freelance project where I developed an e-commerce website for the pharmaceutical industry.
- I was responsible for user authentication (Registration, Login, Verification, Account Approval) and the frontend development.
- Team size: 2
- Website: <https://thuocnhanh.vn/>

AFO - PreSchool Web App | Nextjs, Typescript, Tailwind CSS, Restful API, Axios, Shadcn, Postman

- An interactive web app Preschool using NextJS and Tailwind CSS for smooth UI/UX. Adding a touch of magic with Shadcn for delightful visuals. Seamless integration of Restful API ensures dynamic content updates. Testing the waters with Postman for reliable API interactions. Let's make learning a joyful adventure!
- Demo: <https://afoapp.site/>
- Github: <https://github.com/maitrithanh/AFO>

ToDoApp | ReactJS, NodeJS, ExpressJS, Tailwind CSS

- ToDoApp is a task management application using ReactJS, Tailwind CSS, NodeJS, and ExpressJS.
- Github FrontEnd: <https://github.com/maitrithanh/FullStack-ToDoApp-FrontEnd>
- Github BackEnd: <https://github.com/maitrithanh/FullStack-ToDoApp-Backend>

Tool Convert Image To PDF - Fastool | NextJS, Javascript, Tailwind CSS

- I created this website with the purpose of helping people convert photos into PDF files when needed quickly and conveniently. I use NextJS for the user interface, and process it in Javascript with the jsPDF library.
- Demo: <https://fas-tool.vercel.app/>
- Github: <https://github.com/maitrithanh/FasTool>

ECommerce Website UI | ReactJS, Tailwind CSS

- A mini-project with ReactJS, Tailwind CSS, and Vite to build a dynamic front-end for an e-commerce platform.
- Demo: <https://thanh-ecommerce-reactjs.vercel.app/>
- Github: <https://github.com/maitrithanh/ReactJS-ECommerce>

Portfolio Web | NextJS, Tailwind CSS

- My portfolio website with NextJS and Tailwind CSS for a seamless user experience and stunning visuals. Elevate your online presence with dynamic animations and responsive design.

- Demo: <https://trithanh.dev/>
- Github: <https://github.com/maitrithanh/maitrithanh.com>

VTel | *ASP.Net MVC, SQL Server, HTML, CSS, Javascript, JQuery, Bootstrap*

- This is an e-commerce website that sells computers with an integrated database.
- Demo: <https://youtu.be/1Kfhrc6Ttnw>
- Github: <https://github.com/maitrithanh/VTel-Main>
